INTERIOR—GEOLOGICAL SURVEY, RESTON, VIRGINIA—1985

Mapped, edited, and published by the Geological Survey

Control by USCE

Topography by photogrammetric methods from aerial photographs taken 1951. Map not field checked

Projection and 1000-meter grid ticks shown in blue:
Universal Transverse Mercator, zone 5
10,000-foot grid ticks based on Alaska coordinate system, zone 5. 1927 North American Datum
To place on the predicted North American Datum 1983 move the projection lines 79 meters north and 136 meters east

Land lines represent unsurveyed and unmarked locations predetermined by the Bureau of Land Management
Folio S-22, Seward Meridian

Swamps, as portrayed, indicate only the wetter areas, usually of low relief, as interpreted from aerial photographs

Federal reservation boundaries established by the Alaska National Interest Lands Conservation Act, PL 96-487, Dec. 2, 1980, are shown as compiled by the administering agencies

There may be private inholdings within the boundaries of the National or State reservations shown on this map
