GEOLOGICAL SURVEY

1993

Produced by the United States Geological Survey and the National Ocean Service
 Compiled from USGS 1:24 000-scale topographic maps dated 1956 and 1973. Photography received from aerial photographs taken 1981 and other source data. Revised information not field checked. Map edited 1993.
 1927 North American Datum (NAD 27). Projection and 10 000-meter grid: Universal Transverse Mercator, zone 11. 25 000-foot ticks: California coordinate system, zones 6, 7 and 5. The difference between (NAD 27) and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the tick between the datum for 1.5-minute intersections are given in USGS Bulletin 1875.
 Official protection survey data shown in red, furnished by the Minerals Management Service. Heavy lines indicate limits of Outer Continental Shelf Official Protection Diagrams dated 1966 and 1984. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the 1:250 000-scale OCS Official Protection Diagrams available from the Minerals Management Service.
 There may be private inholdings within the boundaries of the National or State reservations shown on this map.
