Produced by the United States Geological Survey
Compiled from USGS 1:24 000 and 1:62 500-scale topographic maps dated 1947-1958. Planimetry revised from aerial photographs taken 1972-73 and other source data. Revised information not field checked. Map edited 1976.

1927 North American Datum (NAD 27). Projection and 10 000-meter grid: Universal Transverse Mercator, zone 11. 25 000-foot ticks: California coordinate system, zones 3 and 4. The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1875.

There may be private inholdings within the boundaries of the National or State reservations shown on this map. Where omitted, land lines have not been established or are not shown because of insufficient data.

Protracted land lines are dashed.
Map photorevised using 1987-88 photographs.
No major culture or drainage changes found.
