TO GIVE A STANDARD REFERENCE ON THIS SHEET TO NEAREST 100 METERS:
 Read letters identifying 100,000 meter square in which the point lies.
 Locate the VERTICAL grid line to the left of point and read LARGE figure labeling the line number in the top and bottom margin of the line sheet.
 Locate the HORIZONTAL grid line below the point and read LARGE figure labeling the line number in the left and right margin of the line sheet.
 Combine the two figures to give the grid reference.
 Example: 380000
