Prepared by the U.S. Army Topographic Command (GUSC), Washington, D.C. Compiled in 1955 from United States quadrangles, 1:25,000 and 1:50,000, USCGS Charts 5101, 1947; 5202, 1940; 5302, 1941; 5020, 1952; and County highway maps, 1947-48. Planimetry revised in part from aerial photographs taken 1943-51. Map field checked 1956. Revised by the U.S. Geological Survey 1969.

Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 10. 100,000-foot grid ticks based on California coordinate system, zone 5, 1927 North American datum. To place on the predicted North American Datum 1983 move the projection lines 1 meter north and 69 meters east.

Selected hydrographic data compiled from USCGS charts. This information is not for navigational purposes. Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram. There may be private inholding within the boundaries of the National or State reservations shown on this map.
