Control by USGS and USC&GS

Topography from aerial photographs by multiplex methods
Aerial photographs taken 1948. Field check 1952

Polyconic projection. 1927 North American datum
10,000-foot grid based on Colorado coordinate system,
north zone
1000-meter Universal Transverse Mercator grid ticks
zone 12, shown in blue

SCALE 1:24000

The figure consists of three horizontal scale bars. The top bar is labeled '1' at both ends and has a midpoint labeled '0'. Above this midpoint is a fraction $\frac{1}{2}$. The middle bar is labeled '1000' at both ends and has a midpoint labeled '0'. Above this midpoint is a '0'. The bottom bar is labeled '1' at both ends and has a midpoint labeled '0'. Above this midpoint is a '.5'. Below the bars, the text '1000 0 1000 2000 3000 4000 5000 6000 7000 FEET' is written above the middle bar, and '1 KILOMETER' is written above the bottom bar.
