

Prepared by the U. S. Army Topographic Command (KC), Washington, D. C. Compiled in 1961 from United States quadrangles, 1:24,000, 1:25,000, 1:31,680, and 1:50,000, 1932-58; NOS charts 1940-52. Planimetry revised in part from aerial photographs taken 1957-58. Map field checked 1962. Revised in 1975 by the U. S. Geological Survey from aerial photographs taken 1974.

Selected hydrographic data compiled from NOS charts. This information is not intended for navigational purposes.

Areas covered by dashed light-blue pattern are subject to controlled inundation.

100,000-foot grids based on Connecticut coordinate system, and New York coordinate system, east and Long Island zones.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
