

STATE OF FLORIDA

4443 11 NW
(WATERS LAKE)

A diagram showing a vertical curve. A horizontal line is divided into two segments. The left segment is labeled "16 MILS" and has an angle of $0^{\circ}54'$ below the horizontal. The right segment is labeled "18 MILS" and has an angle of 1° above the horizontal. A vertical line passes through the junction of the two segments, with a star at the top and the label "MN" next to it. The label "GN" is at the junction point.

Map photoinspected 1984
No major culture or drainage changes observed
