Produced by the United States Geological Survey and the National Ocean Service in cooperation with State of Georgia agencies  
 Control by USGS and NOS/NOAA  
 Orthophotomaps prepared by the Geological Survey from aerial photography taken April 19, 1974. Topography by planimetric surveys, 1956, revised from aerial photographs taken February 1974. Field checked 1975. Map edited 1979. Superimposed topographic map dated 1958.  
 Bathymetry compiled by the National Ocean Service from tide-coordinated hydrographic surveys.  
 This information is not intended for navigational purposes.  
 Mean lower low water (dotted) line and mean high water (solid) line compiled by NOS from tide-coordinated aerial photographs.  
 Apparent shoreline (outer edge of vegetation) shown by photography.  
 Projection: Florida coordinate system (transverse Mercator) 10,000-foot grid ticks based on Florida coordinate system east zone, and Georgia coordinate system, east zone 1000-meter Universal Transverse Mercator grid, zone 17 1927 North American Datum.  
 To place on the predicted North American Datum 1983, move the projection lines 2.1 meters south and 17 meters west as shown by dashed corner ticks.
