EASTERN UNITED STATES 1:250,000

MAPPED, EDITED, AND PUBLISHED BY THE U.S. GEOLOGICAL SURVEY AND THE NATIONAL OCEAN SURVEY Original topographic map prepared by the Defense Mapping Agency Topographic Center from 1:10,000, 1:25,000, 1:50,000, and 1:62,500-scale maps dated 1917–1955. Photographs field annotated 1956. Planimetry revised by the U. S. Geological Survey from aerial photographs taken 1974-1976 and other source data. Map edited 1977 Bathymetry and shoreline compiled by National Ocean Survey (NOS). Bathymetry was compiled from NOS Hydrographic Surveys (see index). Bathymetry was complete from NOS Hydrographic Surveys (see index). Bathymetric survey data comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards and/or standards used as of the date of the survey. Shoreline (mean high water line) was compiled from NOS tide-coordinated aerial photographs. This information is not intended for navigational purposes Offshore protraction survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protraction Diagrams dated September 1, 1978. The protractions on this map are not for Federal leasing purposes; for such purposes, refer to the OCS Official Protraction Diagrams available from the Burgau et land Management.

100,000-foot grid based on Georgia coordinate system, east zone Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram
