

Produced by the United States Geological Survey in cooperation with National Imagery and Mapping Agency. Topography compiled 1960. Planimetry derived from imagery taken 1966. Survey control current as of 1963. Contour gaps near map edges are due to NAD83 shift. The values of the shift between NAD 83 and Old Hawaiian Datum for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. Old Hawaiian Datum is shown by dashed corner ticks. There may be private inholdings within the boundaries of the National or State reservations shown on this map.
