

Prepared under the direction of the President, Mississippi River Commission, Horizontal control by Mississippi River Commission, Corps of Engineers, U. S. Army, New Orleans District and Louisiana Geodetic Survey. Vertical control by Mississippi River Commission, Corps of Engineers, U. S. Army, New Orleans District and Louisiana Geodetic Survey. Descriptions, elevations and geodetic positions of permanent marks may be obtained from Corps of Engineers, U. S. Army, New Orleans District, New Orleans, La. Topography by Corps of Engineers, U. S. Army, New Orleans District, 1939-40 and 1950. Contours in the Atchafalaya Basin Floodway are omitted. Elevations taken in 1950 are shown across floodway along ranges at two and/or three mile intervals. Planimetry taken from aerial photographs flown by U. S. Air Force in September-October 1947 and March-April 1948 and Corps of Engineers, U. S. Army in November-December 1949. This was supplemented by information obtained from Federal and State agencies and private corporations. Elevations in streams refer to mean sea level. Elevations in channels of floodway were taken from hydrographic surveys of 1950. Elevations in Bayou Teche taken from survey of August 1950. Elevations in other channels outside the Atchafalaya Basin Floodway taken from published Loreauville Quadrangle Map (Edition 1941). Dashed land lines are projected. Political boundaries are shown according to the best available information. Work under Flood Control Act shown as of April 1951. Transverse Mercator Projection, 1927 North American Datum.

LEGEND: Levee and dikes, Retention, River Gate, Levee mile post, Levee station, Headwater, L M P, T H. Distances on Atchafalaya River below head, and through Atchafalaya Basin Main Channel, Upper Grand River, Blind Tensas Cut, Lake Mongoulois, Bayou Chene Cut-Tarleton Bayou, also along Bayou La Rompe, Lake Long, Bayou L'Embaras, Lake Rond and Lake Fausse Pointe Cut are shown (in red and black) at 5 mile intervals. Distances below the confluence of Bayou La Rompe and Lake Long, through Bayou La Rompe, Tensas Bay and Splice Island Chute are shown (in red and black) at 5 mile intervals. Distances in black are based on the 1916-17 Survey; distances in red are based on the 1950 Survey. Distances on Bayou Teche, above mouth, are shown at 5 mile intervals.

Additional copies may be procured from The President, Mississippi River Commission, Vicksburg, Miss. 20 cents per copy.
