

Prepared under the direction of the President, Mississippi River Commission, Horizontal control by Mississippi River Commission and Corps of Engineers, U. S. Army, Second New Orleans District. Vertical control by Mississippi River Commission and Corps of Engineers, U. S. Army, Second New Orleans District. Topography by Corps of Engineers, U. S. Army, Second New Orleans District, 1930-36. Revised by Mississippi River Commission January, 1936. Political boundaries are shown according to best available information, and are subject to change except where established by court decision. Boundary between First and Second New Orleans Engineer Districts and the Lower Mississippi Valley and Gulf of Mexico Divisions is the right bank of Lower Grand River System. Work under Flood Control Act as of January, 1936. Polyconic Projection, North American Datum.

Contour interval 5 feet
Datum is mean gulf level at Biloxi, Mississippi. Elevations differ from mean sea level elevations as determined by the U. S. Coast and Geodetic Survey, by small fractions of a foot. Persons interested may secure elevations of bench marks as determined by the latest U. S. C. & G. S. adjustment, by applying to the U. S. Coast and Geodetic Survey.
