

Prepared under the direction of the President, Mississippi River Commission. Horizontal control by Mississippi River Commission and Corps of Engineers, U. S. Army, New Orleans District and Vicksburg District. Vertical control by Mississippi River Commission and Corps of Engineers, U. S. Army, New Orleans District and Vicksburg District. Descriptions, elevations and geodetic positions of bench marks may be obtained from New Orleans Engineer District, New Orleans, La. Topography by Corps of Engineers, U. S. Army, New Orleans District and Vicksburg District, 1930-1939. Depths shown along the river in Mississippi River are below Mean Low Water as of Survey July and August 1939. Mean Low Water elevation is expressed in feet Mean Gulf Level and is shown on notes and west borders. Revised by Mississippi River Commission, 1935 and 1939. Political boundaries are shown according to best available information, and are subject to change where established by court decision. Area outside of Alluvial Valley is not contoured and is taken from Soil Survey Map of Claiborne County, Miss. (U. S. Dept. of Agriculture 1926) and George Ehrenberg map of Warren County, Miss. (1929); also Miss. State Highway maps adjusted to fit topography obtained from aerial photographs and Survey of Big Black River by Vicksburg District 1930 and 1939. Original U. S. Land Plats in Townships 12 and 13 N - Ranges 2 and 3 E are in doubt. Adjustments have been made from available data and lines as shown are subject to correction. Work under Flood Control Act shown as of December 1939. Polyconic Projection, North American Datum.

Datum is mean gulf level at Biloxi, Mississippi. Elevations differ from mean sea level elevations as determined by the U. S. Coast and Geodetic Survey, by small fractions of a foot. Persons interested may secure elevations of bench marks as determined by the latest U. S. C. & G. S. adjustment, by applying to the U. S. Coast and Geodetic Survey.

Additional copies may be procured from
