

Prepared by the Defense Mapping Agency, Topographic Center, Washington, D. C. Compiled in 1955 by photogrammetric methods from aerial photographs taken 1953. Photographs field annotated 1954. Revised by the U. S. Geological Survey from aerial photographs taken 1976-78 and other source data. Revised information not field checked. Map edited 1980 Transverse Mercator Projection. 10,000-meter Universal Transverse Mercator grid, zone 16. 100,000-foot grid ticks based on Wisconsin coordinate system, central and north zones. 1927 North American Datum. To place on the predicted North American Datum 1983, move the projection lines 6 meters north and 9 meters east. Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram. There may be private inholdings within the boundaries of the National or State reservations shown on this map.
