

Mapped, edited, and published by the Geological Survey as part of the Department of the Interior program for the development of the Missouri River Basin. Control by USGS and USC&GS. Topography by photogrammetric methods from aerial photographs taken 1960 and planetable surveys 1962. Polyconic projection. 1927 North American datum 10,000-foot grid based on Nebraska coordinate system, south zone 1000-meter Universal Transverse Mercator grid ticks, zone 14, shown in blue. Area covered by dashed light-blue pattern is subject to controlled inundation. Dashed blue line at elevation 2785 indicates area subject to infrequent inundation. Fine red dashed lines indicate selected fence and field lines where generally visible on aerial photographs. This information is unchecked.
