Produced by the United States Geological Survey
Topography compiled 1957. Planimetry derived from imagery taken 1986. Photoinspected using imagery dated 1994; no major culture or drainage changes observed. Survey control current as of 1961
Boundaries revised 1998
North American Datum of 1927 (NAD 27)
Projection: Ohio coordinate system, south zone (Lambert conformal conic)
10 000-foot ticks: Ohio coordinate system, south zone and West Virginia coordinate system, north zone
1000-meter Universal Transverse Mercator grid, zone 17
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software
The state boundary as shown represents the approximate position of the low water line as determined from U. S. Corps of Engineers Ohio River Charts, surveyed 1913, and supplementary information
There may be private inholdings within the boundaries of the National or State reservations shown on this map
Land lines based on the Ohio River Base. Dotted land lines established by private subdivision of the Ohio Company Purchase
Information shown in purple may not meet USGS content standards and may conflict with previously mapped contours
