

Center from maps dated 1942–54, and from aerial photographs taken 1953–56. Field checked 1956. Planimetry revised by the U. S. Geological Survey from aerial photographs taken 1972 and other source data. Map edited 1973

Bathymetry compiled from NOS Hydrographic Surveys (see index) which comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards and/or standards used as of the date of the surveys. Shoreline (mean high water line) from NOS nautical charts which are compiled from tide-coordinated aerial photographs. This information is not intended for navigational purposes Offshore protraction survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental

Shelf Official Protraction Diagrams. The protractions on this map are not for Federal leasing purposes; for such purposes, refer to the OCS Official Protraction Diagrams available from the Bureau of Land Management 100,000-foot grid based on Louisiana coordinate system, south zone and Texas coordinate system, south central zone Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram
