Produced by the United States Geological Survey and the National Ocean Service

Compiled from USGS 1:24 000 and 1:62 500-scale topographic maps dated 1952-1981. Planimetry revised from aerial photographs taken 1988-81 and other source data. Revised information not field checked. Map edited 1988.

Bathymetry compiled by the National Ocean Service from tide-coordinated hydrographic surveys. This information is not intended for navigational purposes. Mean lower low water (dotted) line and mean high water (heavy solid) line compiled by NOS from tide-coordinated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by light solid line. Projection and 10 000-meter grid, zone 10. Universal Transverse Mercator 25 000-foot grid ticks based on Washington coordinate system, south zone 1927 North American Datum.

To place on the predicted North American Datum 1983 move the projection 1 24 meters north and 96 meters east. Where omitted, land lines have not been established. There may be private inholdings within the boundaries of National or State reservations shown on this map.
