

Produced by the United States Geological Survey  
Topography compiled 1957. Planimetry derived from imagery taken 1975. Photos inspected using imagery dated 1994; no major culture or drainage changes observed. Survey control current as of 1958. Boundaries, other than corporate, revised 1998.  
North American Datum of 1927 (NAD 27)  
Projection: West Virginia coordinate system, south zone (Lambert conformal conic)  
10 000-foot ticks: West Virginia coordinate system, south zone and Ohio coordinate system, south zone  
1 000-meter Universal Transverse Mercator grid, zone 17  
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software.  
The state boundary, as shown, represents the approximate position of the low waterline as determined from U. S. Corps of Engineers Ohio River charts, surveyed 1913, and supplementary information.  
There may be private inholdings within the boundaries of the National or State reservations shown on this map.  
Information shown in purple may not meet USGS content standards and may conflict with previously mapped contours.

SCALE 1:24 000  
CONTOUR INTERVAL 20 FEET  
NATIONAL GEODETIC VERTICAL DATUM OF 1929  
TO CONVERT FROM FEET TO METERS, MULTIPLY BY 0.3048

ROAD CLASSIFICATION  
Primary highway, hard surface  
Secondary highway, hard surface  
Unimproved road  
Light-duty road, hard or improved surface  
Interstate Route  
U. S. Route  
State Route
